TOXNET Practice Questions

A patron says that she broke out in a rash after using Sentry Flea and Tick shampoo on her dog. She wants to find out if there’s a compound in it that she might be allergic to. She also wants to contact the manufacturer but there’s no phone number on the bottle. Can you find her information on the ingredients and a contact number for the manufacturer?

A 16 year old is doing research for a school project on farming. He’s interested in getting more information about the impact of pesticides and other chemicals used in agriculture. What source(s) do you recommend for him?

A long-time resident says he remembers that there was an old landfill in Islip (or maybe Hauppauge?) that was polluted and closed down. Can you find him information about it? Has it been cleaned up?

A patron wants to learn more about substances that could cause COPD. Where can you find out about this?
